Oilfield Services

# Who We Are?

CRISCORE is a privately-owned Nigerian Company registered in 2015 with the goal of providing high-quality and specialized marine services and integrated asset management solutions for the energy sector.

Our approach is to deliver quality at a competitive price utilizing multi-disciplinary teams and equipment according to International Standards and Specifications.

## Vision

To be the leading player in Asset Integrity Management (AIM) and operational efficiency.

As AIM experts, we drive to bring absolute focus to advanced technology. Our quality of service and agility in the energy sector is aided by continuous innovation.

## Mission

We provide unique services that enable our clients to improve reliability and efficiency in operations, thereby reducing risk and cost while improving safety and performance.

# ABOUT US

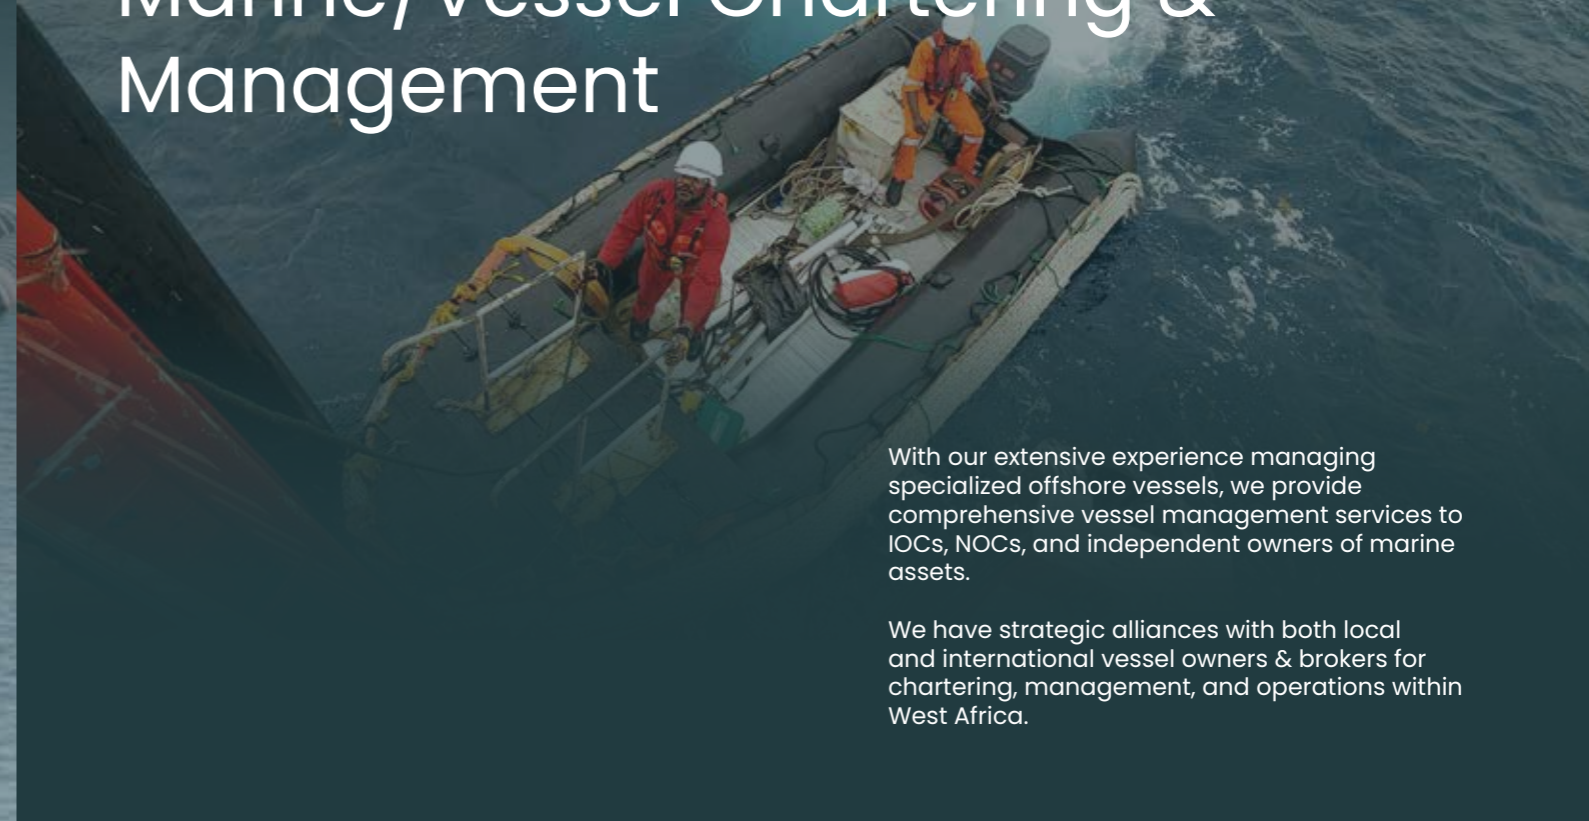

# What We Do

- Marine/Vessel Chartering & Management
- Asset Integrity Management/Inspection Repairs & Maintenance
- Equipment Machinery Health Management
- Hydrostatic Pressure Testing and Calibration Services
- Heavy Duty, Rotating/Mechanical Equipment Rental
- Manpower Supply/Training & Competency Development
- Procurement & Supply Chain Management

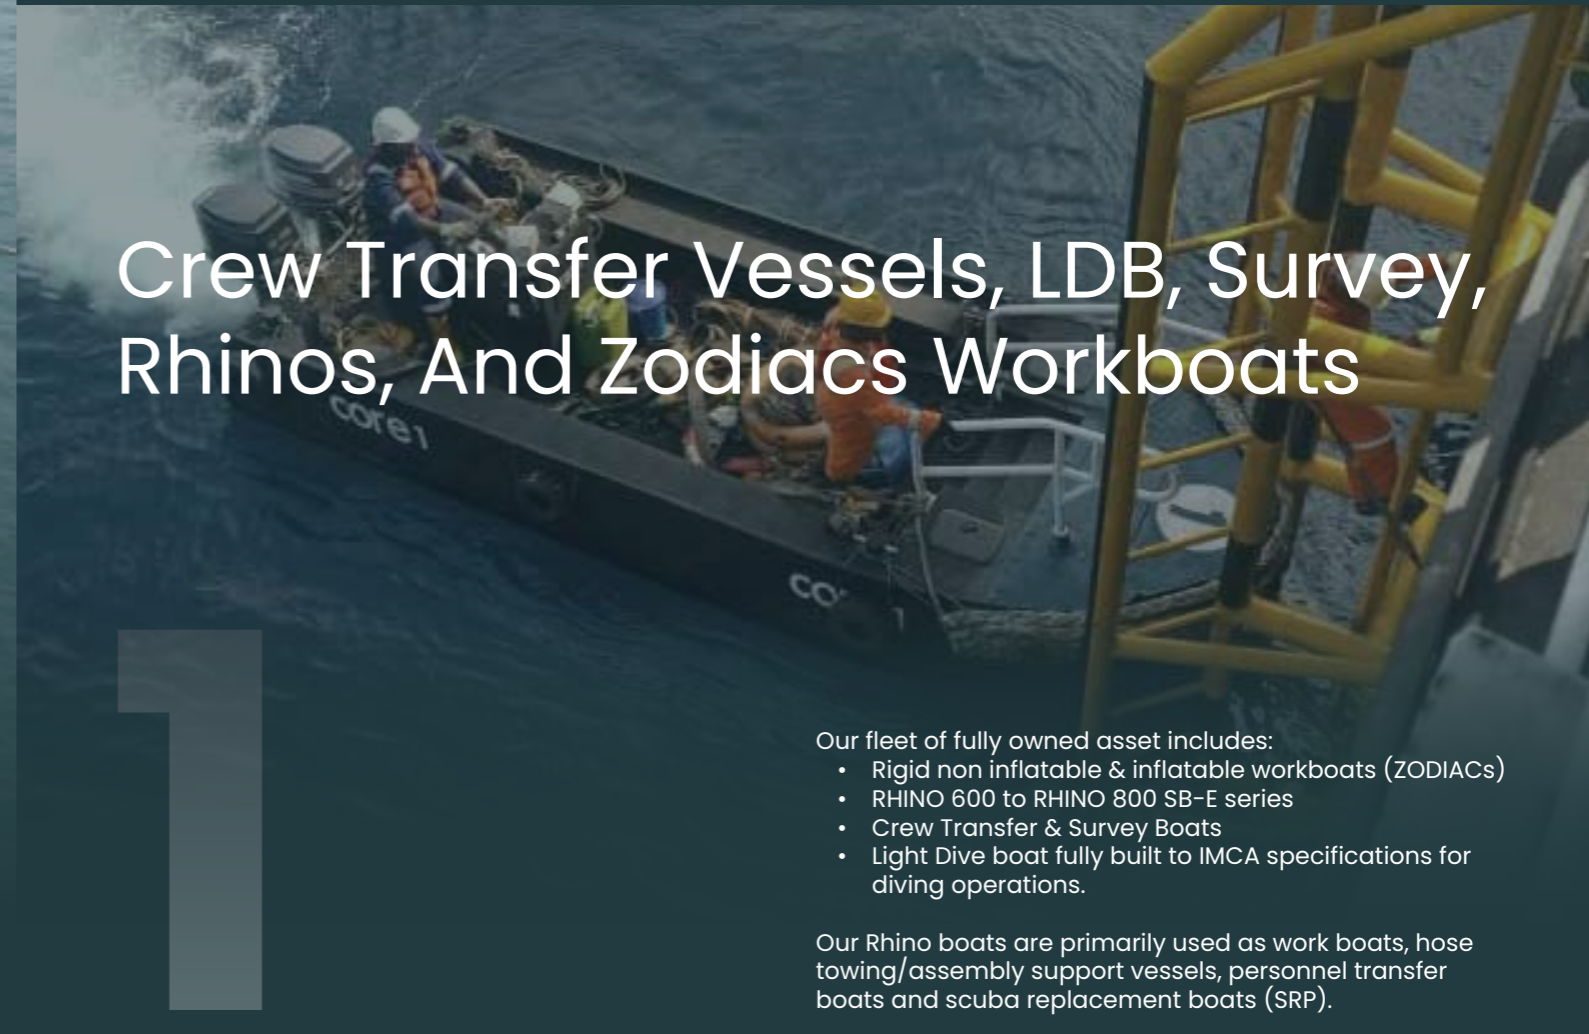

# Marine/Vessel Chartering & Management

With our extensive experience managing specialized offshore vessels, we provide comprehensive vessel management services to IOCs, NOCs, and independent owners of marine assets.

We have strategic alliances with both local and international vessel owners & brokers for chartering, management, and operations within West Africa.

# Crew Transfer Vessels, LDB, Survey, Rhinos, And Zodiacs Workboats
